

Common Errors in Completing NRUF Form 502

Issue	Solution
1. "Rate Center is not valid for NPA entered"	Service providers may refer to the rate center abbreviation list under NRUF/Requirements to File on the NANPA website for assistance in listing the correct rate center abbreviation.
2. "NPA-NXX has already been reported. This row will not be stored" "NPA is a duplicate. The first NPA has been accepted."	Remove the duplicate entry from the appropriate utilization and/or forecast form.
3. "Invalid NPA-State combination"	Enter a correct state abbreviation (e.g., MT) that corresponds to the NPA (e.g., 406.)
4. "Assignee/Assignor Information is missing"	Enter the name of the entity to which intermediate numbers have been assigned or from which intermediate numbers have been received in the "Notes/Assignee" field.
5. "Year X is invalid. Year X cannot be more than..."	Enter no more than one (1) on initial forecast forms (F1A, etc.) Enter no more than 50 on growth forecast forms F1B or F2B. On the F3B, the limit is 100.
6. "Block is marked for donation to pool, but utilization is greater than 10%"	If the field "Donated to Pool?" is checked on U1, the total numbers reported in the usage columns (Assigned, etc.) cannot exceed 100 (10%) per thousands-block.
7. "Parent Company OCN is invalid."	The applicable Parent Company Operating Company Number must be added to the NAS user profile.
8. "Workbook error: Sheet X should be Form X"	A worksheet is out of sequence or an extra worksheet (e.g., Sheet 1) was added.
